About This Game

Aivolution is a machine learning educational game in which you design and train Ai creatures to compete in various challenges and unlock new levels.

Design unique creatures from over 270 Quadrillion possibilities and let them train themselves inside seven different environments.

Adjust your creature's rewards and punishments to improve efficiency to compete against other creatures scores and see who can build the best self trained Ai.

Maybe you will be the one who will unlock legendary Golden Sneakers as a master Ai trainer?

NOTICE: Aivolution is an Ai training simulator meaning you should not consider it as a regular game. You should only consider purchasing Aivolution if you are curious about how machine learning, evolution and neural networks work in practice.

Title: Aivolution
Genre: Simulation
Developer:
Lykke Studios
Publisher:
Lykke Studios
Release Date: 29 Jan, 2019

b4d347fde0

Good implementation and enjoyable.

Only problem i had is seeing all members adapting the same suboptimal strategy after a long time. Adjustable mutation parameters might be a good addition.. Overall, I enjoyed my time making a playthrough of this game. I thought it was quirky and enjoyable... despite the fact that all the creatures look dead inside, and laugh creepily when you add limbs.

My two creatures; CRET and TED were both failures.

[Here's the Video for my Play through if you are interested.. Overall, I enjoyed my time making a playthrough of this game. I thought it was quirky and enjoyable... despite the fact that all the creatures look dead inside, and laugh creepily when you add limbs.](#)

[My two creatures; CRET and TED were both failures.](#)

[Here's the Video for my Play through if you are interested.. Very interesting concept. I love watching the AI evolving, and building my own cute creatures. Fun times.. Very interesting concept. I love watching the AI evolving, and building my own cute creatures. Fun times.. Good implementation and enjoyable.](#)

Aivolution - Explained, Game release on January 30th:

Our lead developer made a wonderful in-depth explanation both in technical details and gameplay features.

<https://www.youtube.com/watch?v=ATUQ4ZZNLeA>

If you come up with unique behavior on your design, as developers we would be very fascinated to see what you came up with as we have seen occasionally very unique behaviors coming out of the Ai.
